## What else can I do with my cards?

Use them to create new cards via Blueprints or maybe use them to help 'convince' a NPC to help you out. Cheese is quite valuable in space of course...

## What are Blueprints?

Blueprints are instructions on how to create new items with a completed parts list.

There are two types of Blueprints; Universal and R&D. Universal Blueprints are available to all players

to make, assuming you have the parts needed. R&D Blueprints are only craftable if you have that R&D card.

### **Where can I find the Universal Blueprints?**

The Fleet Quartermaster is currently in negotiation with the Fabrication Merchant's Guild over exact Blueprint specifications.

### **Where can I find the R&D Blueprints?**

You never know when one might show up in Salvage...

### **What might be on a Blueprint's Part List and how do I craft them?**

Your Blueprint's part list might require 10 Uncommon Ordnance type cards and 3 Common Commodities, once you've collected the necessary parts visit your local space station Fabrication Merchant and request the item be made.

### **Drat, out of Uncommon Ordnance cards?**

Never fear, the Fabrication Merchant is open to trades. 10 Commons of the same type can be traded to create 1 Uncommon. (The same ratio from Uncommon to Rare, Rare to Ultra Rare)

### **Have extra Folios from your equipment requisition packs?**

For the 2022 Season only, turn in 10 Folios and get 1 Rare card of your choice.
